Profile

Industrial Engineering & Materials student at Mines Nancy, seeking a 6-month end-of-studies internship. I am drawn to challenging projects that combine shopfloor exposure with strategic vision: I like to understand how things really work on the ground, then step back to structure that understanding into improvement levers and actionable decisions for teams. Seeking an internship starting March/April 2027.

Education

Mines Nancy (École nationale supérieure des mines de Nancy) Sept 2024 – Sept 2027
· Engineering degree (Master's level) – Industrial Engineering & Materials

IAE Nancy – Management and Business Administration (MAE) Sept 2026 – Mar 2027
· MBA equivalent, double degree with Mines Nancy. Coursework: management control, information systems management & digitalization, corporate finance

ATS Preparatory Class (post-BTS bridge year) Sept 2023 – 2024
· Intensive year strengthening mathematics, physics and engineering sciences

BTS Vehicle Maintenance, apprenticeship Sept 2021 – June 2023
· 2-year post-secondary diploma in vehicle maintenance (work-study), combining academic training and hands-on industry experience

Experience

G&F Châtelain – Purchasing Transformation Intern, Chanel Watchmaking & Jewelry Sept 2025 – Feb 2026
· La Chaux-de-Fonds, Switzerland

Data & Reporting

· Structured supplier data in SQL and developed ~20 Power BI views on risk, spend and quality, plus Excel/VBA tools to automate reporting

Process & Procedures

· Designed a supplier risk classification and analysis tool (~200 suppliers) and wrote the associated onboarding and due diligence procedures

Stellantis – Belchamp Technical Center (France) March 2025 – Aug 2025
· Development engineering assistant on a new coated brake disc for the Euro 7 standard

1st place – BMW France national apprentice mechanic competition Apr 2023
· Assessed on electrical systems, diagnostics and mechanical troubleshooting

Automotive Mechanic Apprenticeship Sept 2018 – Sept 2023
· Garage FENEIS, Sessenheim

Skills

- Data & Analytics: SQL, Power BI (dashboards, KPIs), Python (data analysis & automation), advanced Excel, VBA
- Supply Chain / Purchasing: purchasing, procurement & planning, flow management, then tools: supplier risk analysis, classification & due diligence, inventory principles
- Continuous Improvement: Lean fundamentals (Yellow Belt) – 5S, VSM, structured problem solving
- Combined perspective: fieldwork experience and strategic (theoretical) approach

Languages

- French: native
- English: B2
- German: basic (A2)

Interests

- Entrepreneurial activities – independent activity in the automotive sector (sales & aftersales)
- Sport: various team and individual sports
- Travel: more than ten countries visited – I enjoy drawing inspiration from different cultures
